BUILD & PLAY

Build & Play ist der große Bastelspaß für kleine Baumeister ab 4 Jahren. Leicht zu handhabende Teile werden einfach zusammengesteckt und teilweise durch ein patentiertes Schraubsystem miteinander verbunden. Anschließend sind die Teile robust genug, um auch actiongeladene Einsätze im Kinderzimmer zu überstehen.

Build & Play is great fun for young builders of 4 years and up! Parts are easy to handle and simply clicked together and partially connected using a screw system. Once assembled, models are strong enough to withstand action-packed play!

REALISTISCHE FUNKTIONEN

REALISTIC FUNCTIONS

MOTOREN MOTORS

Damit kommt Leben ins Modell!

Mit Revell Technik kommt Leben in den Plastikmodellbau. Hochdetaillierte und anspruchsvolle Modellbausätze werden mit modernen Elektronikkomponenten aufgewertet, die es ermöglichen Beleuchtung und Bewegung am Modell umzusetzen.

Alle Komponenten sind individuell auf den jeweiligen Bausatz abgestimmt und können direkt verbaut werden. Aufwendiges Löten und Zurechtschneiden der Kabel entfällt. Die vorprogrammierte Steuereinheit schaltet vollautomatisch die Funktionen am Modell und sorgt damit für eine realistische Darstellung.

Bring life to your models!

Revell TECHNIK brings life to plastic model kit building. Highly detailed and sophisticated model construction kits are upgraded to include modern electronic components which will allow the incorporation of light and movement into the model.

All components are individually matched to the respective kit and can be installed without fuss. Complex soldering and wire trimming is not necessary. The pre-programmed control unit automatically activates the functions on the model and thus ensures a realistic effect.

LICHT LIGHT

THE AMERICAN WAY OF MODEL BUILDING

Bausätze aus dem USA-Programm stehen für den „American Way of Model Building“ und sind über jeden Revell-Fachhändler in Europa verfügbar. Ob hochdetaillierter Plastikmodellbausatz oder anfangergefreundliches Steckmodell, ob Einsteiger oder Modellbau-Profi, hier findet jeder den für sich passenden US-Bausatz.

Kits from the USA program stand for the “American Way of Model Building” and are available at any Revell retailer in Europe. Whether highly detailed plastic model kit or snap model, whether beginner or model building professional, in the assortment everyone will find its perfect US kit.

Die Schnelle und einfache Alternative zu Airbrush

The Fast and easy alternative to airbrush

SPRAY COLOR 100 ml

Erst durch die optimale Bemalung erhält ein Modell sein originalgetreues Aussehen. Insbesondere große Flächen lassen sich jedoch nur schwer mit dem Pinsel lackieren. Für diese Anwendungen gibt es jetzt die 32 am häufigsten verwendeten Revell-Farben in der praktischen 100-ml-Sprühdose. Revell Spray Color sind Acrylfarben, die sehr schnell trocknen und eine hohe Deckkraft sowie eine hohe Kratzfestigkeit besitzen. Aufgrund ihrer besonderen Zusammensetzung lassen sich mit Spray Color auch Polycarbonat-Karosserien von RC-Cars lackieren.

A model only gets its true-to-the-original appearance after receiving an optimal paint job. Large surfaces, in particular, can only be painted with a brush with great difficulty. For these applications, the 32 most frequently used Revell colours are now available in 100ml spray cans.

Revell Spray Color is a series of acrylic paints which dry very quickly, have a high opacity and have high scratch-resistance. Due to the special composition, Spray Color paints can also be used on polycarbonate bodies of RC cars.
