FALLER Advent Calendar Figures

The snow trickles softly and covers our winter range in its wintry splendour! Our popular FALLER Advent calendar should not be missing during this time of contemplation and joy. It contains a wonderful collection of 24 new hand-painted FALLER H0 miniature figures. This is a great opportunity for all fans of hand-painted miniature figures and a magical gift for the Christmas season.

Limited promotional sets - only for a short time!

Autumn time is craft time!

Just in time for the start of the creative autumn season, FALLER presents seven lovingly compiled special offer sets - four in H0 scale and three in N scale - of course in proven FALLER quality.

Look forward to varied themed sets at an attractive special price - limited and only while stocks last!

FALLER Workshops 2025

Creative modelling experiences for beginners and professionals

Layout building workshop

We will show you how you too can build and design a wonderful model layout. You will receive valuable hints, advice, practical experience and many illustrative tips as optimal support to give shape to your creative ideas - from the substructure and landscaping to rock and water design.

13 - 15 November 2025

Topic: Beginner plant construction

Car System

You will learn everything about road construction, vehicle technology and the various control components and control modules in order to plan and construct road layouts and traffic scenarios in line with traffic requirements.

10 - 12 October 2025

Topic: Basic knowledge

Car System Digital

In this seminar, you will learn about all the special features of digital vehicles and their interaction with the Car System Digital hardware and software. What are the differences between Car System and Car System Digital? How do ultrasonic localisation and radio communication work? How are they controlled? No question remains unanswered.

21 - 22 October 2025

Topic: Car System Digital Basics

Car System Digital »Vehicle conversion«

Over the course of two days, you will learn all the theoretical and practical skills required to convert a conventional, analogue Car System model vehicle for

Car System Digital operation. After the vehicle conversion, your vehicle will have many new digital functions.

23 - 24 October 2025

Topic: Vehicle conversion

The number of participants is limited. Workshop dates for 2026 will be announced shortly on our homepage. Keep checking back at: faller.en/workshops

Autumn 2026

The blast furnace —
our anniversary model.
A model with big ideas.
A model that carries history.
A model that we are making a
reality thanks to you.

Decided together: Our 2026 anniversary model

The votes from our community were clear: you want to see the coal and steel industry on the model layouts — and we'll make it happen!

80 years of FALLER — that calls for a model with flying sparks! In 2026 we will let the blast furnace blaze again. The model: the legendary blast furnace 2 in Duisburg's Meiderich steelworks. It spit fire and pig iron for decades - until the last embers went out in 1985.

Today it is a monument and landmark. Tomorrow it will become a miniature and anniversary model.

With an inclined lift, gas torch, gantry crane and countless fine details, history is being turned into a unique construction project — **sophisticated, monumental, fascinating.**

More information

130026

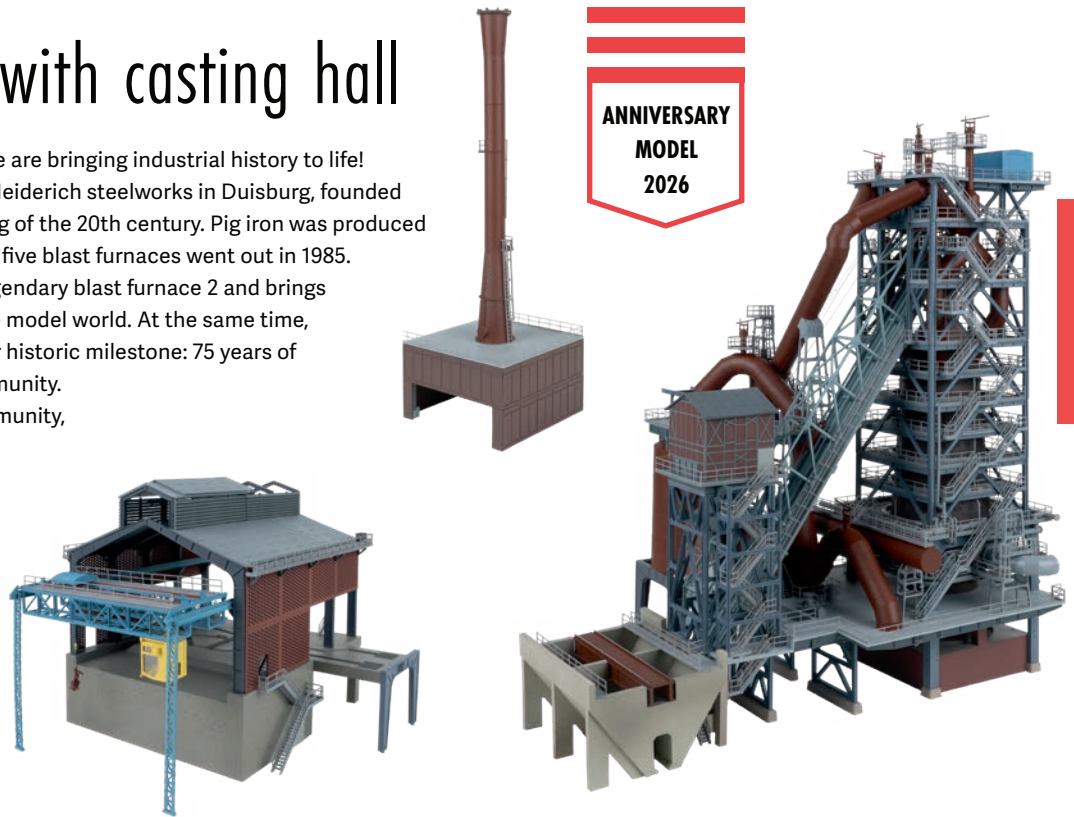

Blast furnace with casting hall

For our 2026 anniversary model, we are bringing industrial history to life! We took our inspiration from the Meiderich steelworks in Duisburg, founded by August Thyssen at the beginning of the 20th century. Pig iron was produced there for decades - until the last of five blast furnaces went out in 1985. The model recreates the plant's legendary blast furnace 2 and brings the coal and steel industry into the model world. At the same time, we are building a bridge to another historic milestone: 75 years of the European Coal and Steel Community. The European Coal and Steel Community, the nucleus of today's EU, once opened up duty-free access to coal and steel - and thus paved the way for economic unification and lasting peace in Europe. A model with history, vision and weight - for collectors, history and technology enthusiasts and anyone looking for a challenge!

Epoch III

The model includes the blast furnace with surrounding frame, the inclined lift with winch house, a dust collector, the Y-pipe with associated pipes, a gas flare, the casting hall with gantry crane and a small day bunker.

The theme world is growing bit by bit – you can already look forward to lots of exciting additions!

110154

»Güssing« Railway station

While the next model train leisurely pulls onto the track, the Güssing railway station is a hive of miniature activity! The small lemon yellow station with its dark green shutters and charming red tiled roof blends seamlessly into a wide variety of landscapes. Inspired in colour by the real Güssing station in Austria, the model also sets cheerful accents on the model layout with its bright paint!

Epoch III • 406 x 161 x 128 mm • 10/25

120305

»Güssing« Gatekeeper's lodge

Just like the »Güssing« station, this station attendant's cottage also impresses with its vibrant yellow colour scheme - a real eye-catcher on any layout. The base, cornices and friezes are digitally printed and provide white accents. Ideal for giving the model railway landscape a new coat of paint.

Epoch II • 95 x 70 x 85 mm • 11/25

120089

»Weisenbach« Block post

A small highlight for the model railway layout! The yellow brick-built blockhouse with striking dark green marquee roof and white wooden staircase brings more activity to your railway line. Perfect for adding some detailed realism to your layout.

Epoch II • 90 x 85 x 111 mm

120090

»Bergheim« Signal box

Control centre in miniature format - this signal box is used in reality to set points, switch signals and bring traffic to life. The model is based on a French prototype and impresses with its slender construction on filigree supports. The raised design allows it to be placed between the tracks. A detailed interior is included and completes the model.

Epoch II • 242 x 68 x 127 mm • 01/26

7

130783

Border control post

This sandstone-coloured building with a classic saddle roof and stone decorations on the corners is reminiscent of the typical border checkpoints of past decades. The associated border crossing comprises two covered barriers - each for entry and exit - and can be flexibly configured: One of the barriers can be attached directly to the building using a bracket.

Epoch III • Building: 154 x 112 x 117 mm • Barriers with roofing: 165 x 115 x 53 mm • 11/25

151713

Traffic control

151716

Policemen

8

120293

Gantry crane

Inspired by the gantry crane of the Meiderich steelworks, which will celebrate its 100th anniversary in 2025, this model brings a piece of heavy industry to the layout. The design allows construction in four lengths - from 528 to 798 mm - and makes the crane versatile. Ideal for industrial sites to create an authentic atmosphere.

Epoch III • 528 - 798 x 243 x 228 mm • Clearance height: 136 mm • 12/25

182005

20' Container »THW«, set of 2

Two detailed containers from the Technical Relief Organisation in characteristic blue - ideal for bringing industrial facilities, loading zones or freight cars to life. Perfectly coordinated with Märklin wagons.

Epoch VI • 69 x 28 x 30 mm (2 x) • 11/25

182055

40' Container »K-LINE« and »HYUNDAI«

A dark red K-Line container and an orange, red HYUNDAI container bring international freight flair to the world of modelling. Ideal for creating authentic industrial facilities, harbour scenes or freight wagons - suitable for Märklin wagons and perfect for scene builders with a love of detail.

Epoch IV • 140 x 28 x 30 mm (2 x)

182056

40' Container »DHL« and »XTRA«

A container in the characteristic yellow colour of Deutsche Post and another in the red-brown colour of the XTRA company bring international freight flair to the model world. Ideal for authentically designing industrial facilities, harbour scenes or freight cars - suitable for Märklin freight cars and perfect for detail-loving scenery builders.

Epoch IV • 140 x 28 x 30 mm (2 x)

131016

Fire boat

Compact and manoeuvrable - always ready! The model of the small red fireboat (waterline model - not floatable) is primarily designed for use on inland waterways and rivers.

With its pointed hull and white-painted wheelhouse - clearly labelled »Fire brigade« - it sails to its next mission. The generous loading area offers space for various fire-fighting equipment and a matching red lifeboat is included.

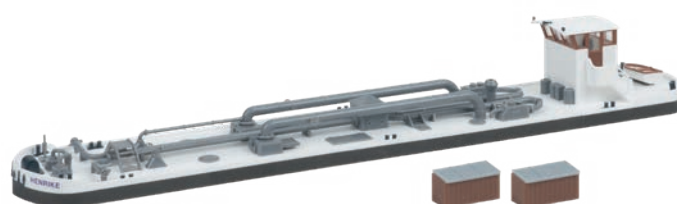

Epoch IV • 254 x 57 x 74 mm • 10/25

131017

Tanker

A tanker for inland shipping! This model of a tanker brings authentic harbour and industrial flair to any layout. The flattened hull, the wheelhouse and the pipework system on deck provide an industrial touch. Two enclosed wooden containers complete the scenery. Waterline model - not floatable - but ideal for creating realistic water scenes in the model.

Epoch IV • 359 x 60 x 52 mm • 10/25

131023

»Federal Police« Helicopter

Off to the next mission - with the miniature helicopter of the German Federal Police! When things get dicey, it's on the spot: the detailed EC135/H135 of the German Federal Police brings realistic action to the world of modelling. With its dark blue paintwork and precise replica, the helicopter ensures safety from the air - whether for rescue missions, chases or support on the ground. Perfect for adding some action to your model layout!

Epoch VI • 138 x 115 x 40 mm • 12/25

130714

Townhouse set

Splashes of colour for the cityscape - with their bright colours, these two townhouses bring a breath of fresh air to your miniature town: the yellow house with four storeys and its blue counterpart with five storeys complement each other perfectly and set colourful accents in the district. The classic mansard roofs lend the models a touch of historical elegance - ideal in combination with the town houses Art. 130712 and Art. 130713.

Epoch III • Town house 1: 99 x 113 x 238 mm •
Town house 2: 99 x 108 x 206 mm • 11/25

130751

»Pritzwalk« Residential building

A piece of German series history in model format! Inspired by a residential building from the ARD series »Marienhof«, this model brings the charm of the fictitious Cologne neighbourhood to the layout. The apartment building with its grey façade design, six characteristic balconies and a dark red tiled roof in a saddle shape is an ideal model for depicting scenes with everyday flair and urban character. Particularly striking: the flat roof area, framed by surrounding wrought-iron decorative elements.

Epoch IV • 145 x 126 x 200 mm • 12/25

130784

Waldorf School

A sand-coloured building consisting of a two-storey main building and a three-storey integrated extension. Both parts of the building have grey hipped roofs. Dark brown mouldings frame the white windows and create subtle contrasts. A large door forms the main entrance and leads into the interior of the main building. Ideal for depicting a school or administrative building in an urban environment.

Epoch III • 282 x 130 x 177 mm • 11/25

130752

»Bergmannsplatz 1« Development house

This model brings a piece of history into your miniature world: inspired by the historic workers' houses of the listed Bergmannsplatz colliery estate in Duisburg-Neumühl, the beige-coloured estate house with striking brick elements and classic pitched roof stands for model architecture with history. As part of the Route of Industrial Heritage, it tells the story of hard work and the most striking industrial monuments in the Ruhr region - perfect for anyone who wants to give their property an authentic, industrial flair.

Epoch II • 160 x 128 x 124 mm

11

130753

»Bergmannsplatz 2« Development house

A touch of the Ruhr region for your model world: The brown estate house with classic pitched roof and characteristic brick elements is inspired by the historic workers' houses of the listed Bergmannsplatz colliery estate in Duisburg-Neumühl. As part of the Route of Industrial Heritage, it tells of hard work and living history - an ideal model for anyone who wants to give their property an authentic, industrial flair.

Epoch II • 160 x 128 x 124 mm • 11/25

130679

Village church with churchyard

A cosy village church with white plaster, grey stone edges and brown bricks stretches its steeple out over the miniature roofs and looks quietly and reverently over the small cemetery and courtyard that surrounds it. A rustic wooden gate and a staircase open the way into the church, which is surrounded by a protective stone wall.

Epoch I • 230 x 160 x 200 mm

180326

Circular clarifier

An elegant solution for cleaning dirty water. Ideal for use in miniature industrial plants and wastewater treatment plants.

Epoch III - Ø 142 x 31 mm

151713

Traffic control

151716

Policemen

151734

Beach day

151711

Passers-by in winter

FALLER HOBBY

131337

Boiler-house

This brick boiler house with its rust-red colour and high industrial chimney is ideal for decorating an industrial plant. A small wooden extension in dark green blends harmoniously into the overall picture, while the green wooden element on the roof adds a charming accent. A boiler house usually houses several steam boilers and plays a central role in the production of steam, which is required for a wide range of industrial applications.

Epoch I • 188 x 120 x 180 mm

131336

Smoke stack

An imposing, rust-red industrial chimney made of bricks rises up on the model layout - the ideal detail to give a factory the authentic, rustic atmosphere and typical industrial charm.

Epoch I • Ø 34 x 254 mm

Further models from the series »FALLER HOBBY« range can be found at faller.de/en

13

131338

2 Storage tanks

Two silver storage tanks bring industrial charm to your model layout. Fenced off and fitted with several warning signs, they blend seamlessly into factory premises, loading zones or railway stations. A simple but effective detail for realistic scenes in an industrial environment.

Epoch III • 113 x 99 x 60 mm

131335

Town gas cylinder

With its compact but striking appearance, this small city gas boiler fits perfectly into any factory or city model. As part of the historical energy supply, the green-brown tank gives the plant an authentic touch of industrial charm.

Epoch I • 137 x 125 x 117 mm

190088

»Goods handling« Promotional-Set

This action set transforms any railway station into an authentic goods handling centre! The sand-coloured, brick-built administration building keeps operations in order, while the goods shed with red brick walls serves as a temporary storage area for the goods. A simple wooden shed, a transformer house and a diesel filling station round off the scene - perfect for atmospheric logistics in miniature.

Contents: Goods shed, warehouse, diesel filling station, transformer house, administration building, decoration (barrels, cloth sack, pallets, wooden crate)

Epoch III • Goods shed: 193 x 109 x 73 mm • Warehouse: 128 x 96 x 53 mm • Petrol station: 109 x 48 x 69 mm • Electrical substation: 51 x 35 x 38 mm • Administration building: 188 x 135 x 96 mm

190089

»On the building site« Promotional-Set

Construction, hammering and work in progress! Two houses are rising from the ground. One with a freshly started roof structure, the other still in the shell. A large silo, a blue construction trailer and lots of accessories bring real building site flair to the miniature world. Also included: hard-working builders who drill, screw and bring the set to life!

Contents: Detached house under construction, house under construction, silo, construction trailer, 6 figures, toilet block, container, construction site sign, other accessories (wheelbarrows, pipes, stones, sacks, ladders, tools, etc.)

Epoch I • Construction trailer: 61 x 31 x 37 mm • Detached house under construction: 120 x 106 x 61 mm • House under construction: 120 x 90 x 95 mm • Silo: 24 x 24 x 64 mm

190087

»Back to school« Promotional-Set

The »Back to school« Promotional-Set contains a charming primary school building, which shines in a friendly light blue colour and heralds the first day of school with its playful turret on the red-tiled roof! A large arched door lets the pupils in and through the white windows they can watch the goings-on in the playground. There, a variety of play equipment provides fun and exercise. Swings, climbing frames and a sandpit invite children to play. A football goal awaits the next match and a merry-go-round spins in circles! The set also includes eight miniature schoolchildren to liven up the scenery.

Contents: School building, 8 figures, play equipment for the schoolyard (swings, slide, climbing frames, roundabout, sandpit, climbing equipment, football goal)

Epoch IV • 145 x 98 x 148 mm

190093

»Christmas singing« Promotional-Set

O Christmas tree, O Christmas tree - festive carols ring through the miniature world. The small choir gathers in front of the sparkling illuminated Christmas tree to sing atmospheric Christmas carols together in front of the town hall. The town hall itself presents itself in rustic charm: a combination of blue and brown, covered with dark tiles and a dreamy turret on the roof.

Contents: Town hall, Christmas tree (and lights), 7 figures

Epoch III • 145 x 98 x 148 mm • 10/25

18

222228

Concrete mixing plant with gravel loading silo

The concrete mixing plant is a hive of activity! An impressive mixing plant with 3 rows of high silos and an office building forms the centre. A passageway allows lorries to be loaded quickly. The sand bunker pockets are subdivided for different types of sand and gravel and sand in 3 different colours is also included for shaping the sand bays. A crane device and a gravel loading silo with conveyor belt (without function) are also included and complete the scenery.

Epoch III • Concrete mixing plant: 165 x 154 x 135 mm • Loading silo: 160 x 95 x 118 mm

222235

Sanding plant

This charming model of a small sanding facility with a green house brings real railway flair to your layout! In reality, sanding facilities are used to supply locomotives with dry sand, which increases traction on the rails. An ideal way to bring a little realism to your model railway!

16 Pallets

202293

2293 Tower block

Model 2293 - a true classic: the striking, multi-storey tower block in blue with a surrounding window front and semi-covered roof terrace is back. With building society, Lufthansa and Tapeten-Haug in the building, supplemented by iconic advertising motifs such as Varta and Coca-Cola. Including reprint of a FALLER magazine.

Epoch III • 84 x 82 x 138 mm

19

22227

Office high-rise

Modern office complex with character! This four-storey office building impresses with its futuristic hexagonal basic shape. Completely glazed and complemented by a three-storey staircase, the architecture appears open and light. The lowest storey, made of grey bricks, creates a striking contrast with its masonry look. Perfectly suited to any modern urban landscape in the model.

Epoch IV • 128 x 106 x 106 mm • 10/25

232149

Prefabricated house under construction

The foundation stone has been laid, the basement is finished - and the first partition walls are already rising on the ground floor. This model of a detached house under construction brings real building site flair to your layout. With typical accessories such as ladders, building materials and tools, the scene comes to life!

Epoch IV • Building: 48 x 36 x 54 mm •
Scaffold: 50 x 8 x 70 mm • 10/25

232146

Detached house, blue

This detached house with blue wall accents, generous terrace floor slab and other decorative elements has a modern and inviting look! The model is easy to build and ideal for beginners.

Epoch V • 59 x 63 x 50 mm

232148

2 Detached houses

This charming double pack brings two detached houses to your model railway layout: The first impresses with wooden wall accents, terrace and grey tiled roof. The second house sets further modern accents with its grey and white façade, elegant covered terrace and red tiled roof. Both models are easy to build and ideal for beginners - double the fun in miniature format!

Epoch V • One-family house 1: 64 x 63 x 50 mm •
One-family house 2: 59 x 63 x 50 mm

272021

2 Christmas market stalls

Two lovingly designed miniature wooden stalls invite you to linger at the Christmas market. The tantalising aroma of fresh treats such as waffles and crêpes wafts from one of them. The other delights collectors with atmospheric candles and handmade ceramics. It's enough to make you want to stroll through the festive market yourself!

Epoch IV • Booth 1: 53 x 24 x 35 mm •
Booth 2: 60 x 24 x 38,5 mm • 10/25

272020

2 Christmas market stalls

Two lovingly designed miniature wooden stalls stand invitingly at the Christmas market. The tantalising smell of potato pancakes wafts from one and the sweet aroma of roasted almonds and hot chestnuts wafts from the other. Between the twinkling lights and snowflakes, the anticipation is immediate - you almost want to stand at the stall and savour a potato pancake yourself.

Epoch IV • Booth 1: 53 x 24 x 43 mm •
Booth 2: 60 x 24 x 38,5 mm • 10/25

239011

»Feldsee« Railway station Promotional-Set

Departures, transfers, arrivals - this railway station set brings the railway to life! A modern platform with a glass roof welcomes travellers. The station itself exudes a rustic charm with its red tiled roof, grey-green plaster, wooden extension and large wooden doors. Meanwhile, points are set and timetables monitored in the sand-coloured signal box. The striking water tower is reminiscent of the days of steam locomotives. A rustic toilet block ensures the comfort of the miniature visitors. Further accessories to decorate the scenery are also included. A great set for all railway enthusiasts!

Contents: Railway station, platform, signal box, water tower, toilet block

Epoch II • Railway station: 165 x 78 x 60 mm • Platform: 167 x 29 x 33 mm • Signal tower: 64 x 38 x 64 mm • Water tower: 75 x 70 x 90 mm • Outside toilets: 73 x 30 x 36 mm

239009

»Halloween« Promotional-Set

Oops, was that a ghost at the window of the villa? With its blood-red bricks and gloomy black roof, it rises up on the model construction site, while spooky skulls flash down from the roofs and galleries. A warning sign announces to visitors: Halloween is being celebrated here! An orange hot-air balloon floats above the roof like a ghost, grinning mockingly down on the scenery with its grimace. Pumpkins of different sizes are placed around the property. Who wouldn't be frightened by this miniature scare?

Contents: Mansion with Halloween sign, hot air balloon, decorative elements (pumpkins and skulls)

Epoch III • Villa: 165 x 145 x 150 mm • Hot air balloon: Ø 97 x 135 mm

Since 1988, the Car System for H0 and N, with its fascinatingly moving road traffic, has been an eye-catcher in model landscapes. model landscapes. The requirements for enlivening layouts with the Car System are very simple. Lay the contact wire and off you go!

Car System

Made in Gütenbach in the Black Forest!

CAR SYSTEM

CAR SYSTEM DIGITAL

Car System Digital

Moving model road traffic taken to the next level. Realistic driving behaviour with significantly more functionality with conventional miniaturisation: More exciting, safer and fully connected! Highest level of playability in manual mode or automatic mode for reliable autonomous driving.

Mini analogue-digital conversion kit

Big technology in a small space - convert now and get started!

Our new, ultra-compact conversion kit with integrated 5 x 5 mm ultrasonic capsule makes the digitalisation of Car System vehicles easier than ever before. Thanks to its minimal size, it is perfect for retrofitting even particularly small vehicle models - ideal for individual conversions and creative projects. With just one circuit board, any analogue model can be turned into a fully-fledged digital vehicle - equipped with:

- Ultrasonic localisation for precise vehicle tracking
- Fully automatic distance control
- Dynamic speed adjustment in play mode

The circuit board also features solder pads for additional lighting and sound functions - perfect for experienced hobbyists who want to get the most out of their model. Small. Powerful. Future-proof.

Board 1: 22 x 18 mm • Board 2: 26 x 28 mm • Board 3: 15 x 14 mm • 11/25

Car System Digital

161323

Car System Digital MB Sprinter »THW« (HERPA)

Ready for action in a small format - the THW vehicle is the most compact model in the Car System Digital. Equipped with a small ultrasonic capsule, it ensures precise navigation and realistic operations on your digital system. Perfect for demanding scenarios in modern model operation.

Car System Digital vehicle functions:

- Headlights/tail lights
- Direction indicator
- Load-controlled motor

Epoch V • 01/26

161324

Car System Digital MB Sprinter »Foodtruck« (HERPA)

Street food on wheels - the »BURGERBOX Foodtruck« brings urban flair and a culinary atmosphere to your digital system. As part of the Car System Digital, it impresses with its compact design, small ultrasonic capsule and detailed design - perfect for modern city scenes with movement.

Car System Digital vehicle functions:

- Headlights/tail lights
- Direction indicator
- Horn
- Load-controlled motor

Epoch VI • 11/25 • 339,99 €*

161325

Lorry Scania R 13 HL »Platform with wooden crate« (HERPA)

Heavy goods transport in miniature format! A blue, grey truck loaded with a wooden crate drives its delivery over the miniature layout. The Car System Digital vehicle impresses with its compact technology, small ultrasonic capsule and high level of detail.

Car System Digital vehicle functions:

- Headlights/tail lights
- Direction indicator
- Horn
- Load-controlled motor

Epoch VI • 10/25

161326

Car System Digital MAN F 2000 »DHL« (HERPA)

Reliability that gets there - the DHL delivery van brings movement and everyday reliability to your digital system. Equipped with an integrated ultrasonic capsule and lovingly designed details, the Car System Digital vehicle is the ideal choice for realistic logistics scenarios.

Car System Digital vehicle functions:

- Headlights/tail lights
- Direction indicator
- Horn
- Load-controlled motor

Epoch V • 12/25

The Car System Digital vehicles are equipped with full digital technology including vehicle localisation. The individual functions can be controlled directly while driving (only with the complete system). With front headlights, rear lights, brake lights and indicators. Multi-stage driving possible. The acceleration and braking behaviour as well as the speed levels are preset ex works, but can be individually adapted.

Use the »Processor-controlled charging unit«, Art. 161349, to charge the batteries of your Car System Digital vehicles.

A guide to Model Making

Discover the world of model making! If you want to fulfil your dream of detailed layouts and dioramas, this 80-page guidebook will help you do just that. Many people who are starting out in the modelling hobby or want to start again after a long break are well advised to read this booklet. We show the basics of how to create realistic layouts and dioramas, as well as tips and tricks. From ornate lighting to automatically moving elements such as opening doors or moving water wheels - the possibilities are endless. The innovations in funfair modelling and in the car system are diverse and look impressive at the same time. With high-quality tools and materials, modelling becomes a pleasure. The perfect inspiration for beginners to realise their dream of the perfect model layout.

170201 (HO, TT, N, Z)

Scattered fibres, fir green

2-3 mm • 35 g • 10/25

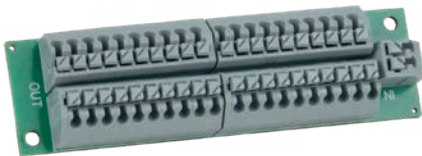

170202 (HO, TT, N, Z)

Scattered fibres, fir green

2-3 mm • 130 g • 10/25

For the realistic design of meadows and wild green areas as well as for flocking and re-flocking model fir trees. Particularly suitable for electrostatic grassing with our »Gras-Fix« (Art. 180691). For optimum results, we recommend the use of our EXPERT spray adhesive, 400 ml (Art. 170497). Fibre height: 2-3 mm

180808 (HO, TT, N, Z)

Distributor plate

The new generation of distribution plates - compact, powerful, tool-free. With 2 x 10 outlets, this innovative distributor solution offers maximum flexibility with minimum effort. It replaces article 180686 and all previous distributor plates - and sets new standards in terms of efficiency and user-friendliness.

- Tool-free cable clamping - for safe installation in seconds
- Connection up to 24 V / 8 A - powerful enough for demanding applications
- Compact design - saves space and simplifies installation

Wiring has never been so easy. Convert now and benefit from the latest technology!

11/25

180228 (HO, TT, N, Z) **5 LEDs for lighting base, warm white**180229 (HO, TT, N, Z) **5 LEDs for lighting base, cool white**

Ideal replacement for defective bulbs in the light socket (Art. 180670) or for anyone who wants to switch to modern LED technology: 12-16 V AC/DC, 15 mA.

161842

2 Roadworks traffic lights

Thanks to the 12 V direct current (DC) connection, the construction site traffic light is ready for immediate use - without any soldering or tinkering. Simply plug it in and get started! Realistic traffic control in miniature format - simple, reliable and versatile.

32 mm • 11/25

282130

LED Whip lamp, 3 Pieces

Modern and widely used whip luminaire. Particularly suitable for designing urban, street and industrial scenes. The filigree luminaire is equipped with long-life LED technology. Height: 30 mm. Light colour: warm white. The product is ready for connection for: 12 V DC. Use the transformer, Art. 180641, to operate the light.

TOMYTEC

Tomytec is one of the most important manufacturers of accessories for model railways based on the Japanese model. The focus is on N scale, but H0 scale is also to be expanded in the course of globalisation. The latest addition: the 1:87 scale rail cleaning trolley - available at the end of 2024.

977903

Rail cleaning trolley H0, yellow

The Tomytec rail cleaning trolley is characterised by its simple but realistic design. With the typical golden yellow, RAL 1004, it follows the colour scheme not only of the railway service vehicles of Deutsche Bahn but also of other European railway companies.

- Suitable for direct and alternating current.
- Two differently sized cleaning discs ensure that the outer and middle conductors are cleaned.
- The enclosed sponge is used to polish the tracks.
- Hoover collects loose dust and small parts from the tracks.
- The waste is collected in the container by means of a propeller and air flow.
- The container is easy to empty thanks to the removable lid.
- Cleaning discs and propellers can be easily replaced without tools.
- The desired coupling can be installed using the NEM coupling holder (couplings are not included).
- Two AA batteries are required to operate the functions (not included), a locomotive is used to move the vehicle (not included).
- The Tomytec rail cleaning trolley is designed to be suitable for a minimum radius of $R = 360$ mm.
- It is not possible to digitise the vehicle.

Here you will find the product video.

976425

Rail cleaning trolley N, blue

With suction insert, three polishing and three grinding discs, interchangeable tool, sponge and brush. Ideal for cleaning, sanding and polishing all commercially available N-tracks. A locomotive is required for operation.

976423

Rail cleaning trolley N, Replacement inserts

Three polishing and three grinding wheels, one brush and one sponge.

976424

Rail cleaning trolley N, Replacement inserts

20 polishing and 10 grinding wheels.

977904

Track-Cleaning-Car H0, Spare part set

Spare parts set for the track cleaning car in H0. Contains two felt sponges, two large cleaning heads, one small cleaning head, 5 large and 5 small grinding wheels and 5 cleaning cloths.
